A Smart Elevator Riding Robot for Hotel

Hotel Robot

Greeting | Guidance | Delivery | Promoting

What Hotel Robot Can Do?

#1 Greeting Welcome guests at a fixed point and broadcast the greeting script that was set by the hotel.

#2 Guidance Lead the guest to a hotel room or other places such as a restaurant, meeting room and more.

#3 Delivery Foods or items can be delivered to the room doorstep and robots will notify guests to pick up the item by calling the room's phone when it arrives.

#4 Promoting The robot will broadcast the ads script and show the ads at the same time.

Safe & Convenient Robot Delivery

1. Guest calls the reception to place an order.

2. Reception received orders and placed items inside the cabinet.

3. Hotel Robot departs for delivery and automatically takes the elevator to its destination.

4. Hotel Robot calls the rooms' telephone to inform customers to pick up the order.
